

이청운

Senior Frontend Developer · Software Developer · New Media Artist

interface, structure, interaction이 하나의 경험으로 작동하는 digital systems를 설계하고 구현합니다. 장기적인 software engineering 경험을 바탕으로 content-driven platforms, data visualisation, VR applications, computational art, public interactive installations를 연결해 왔습니다.

RECENT EXPERIENCE / 최근 경력

Adventure Club

Sep 2023 - Present

Senior Frontend Developer / Helsinki Metropolitan Area, Hybrid

client 및 product work에서 content-driven websites, interface systems, backend-connected applications, immersive VR experiences를 구축합니다.

React Next.js TypeScript Storybook Sanity.io Node.js VR

Utopia Music

Jan 2023 - Aug 2023

Data Visualisation Engineer / Helsinki, Hybrid

music data products를 위한 data visualisation tools와 interactive interfaces를 개발했습니다. React application work와 D3-based visual systems를 함께 다뤘습니다.

D3.js React TypeScript Data Visualisation

Accenture Song

May 2021 - Nov 2022

Senior Front-end Analyst / Helsinki

modern frontend architecture, CMS workflows, testing, reusable component documentation을 기반으로 content-driven websites와 interface systems를 구축했습니다.

React Sanity.io TypeScript Storybook Testing

Helsinki Metropolitan Area

CORE SKILLS / 핵심 역량

Frontend Systems

React, Next.js, TypeScript, Storybook, Sass, testing, CMS integration

Data & Interaction

D3.js, data visualisation, UI architecture, interactive tools, product workflows

Creative Technology

Unity 3D, Unreal Engine, Processing, openFrameworks, OpenCV, physical computing

Software Engineering

C, C++, C#, Objective-C, system architecture, automation software

EDUCATION / 학력

MA / New Media Design and Production

Aalto University, Finland / 2017 - 2020

M.Eng / Convergence Content Production

Dongguk University, South Korea / 2014 - 2016

B.Eng / Computer and Information Science

Korea Digital University, South Korea / 2002 - 2007

Engineering, Research & Creative Practice

이청운 / CV KOREAN

ENGINEERING BACKGROUND / 엔지니어링 배경

- 2019**
2020 **Lab Automation Software**
- Thermo Fisher Scientific에서 scientific instruments와 production workflows를 위한 senior software engineering 업무를 수행했습니다.
-
- 2010**
2016 **Mobile Application Architecture**
- 다양한 client 및 product projects에서 iOS applications의 software architecture와 implementation을 담당했습니다.
-
- 1999**
2010 **Semiconductor & Metrology Systems**
- South Korea, Canada, Japan에서 fault detection and classification systems, wafer metrology software, automated microscopy systems, SECS/GEM protocol 업무를 수행했습니다.

PUBLICATIONS / 논문

- 2017** **Tangible Visualization Table for Intuitive Data Display** ✎
- Symmetry MDPI
-
- 2016** **Hand Tracking Based Projection Mapping System and Applications** ✎
- J. of KCGS

CREATIVE PRACTICE / 전시

- Helsinki Children's Hospital Installation** ✎
- Group installation / Helsinki, Finland / 2018 - Present
- When Light Echoes** ✎
- Group interactive installation / Seoul, South Korea / 2019
- Seeing Sound, Listening to Image** ✎
- Solo exhibition / Vare Gallery V1, Aalto University / 2019
- Drawing Machine** ✎
- Solo exhibition / IDAS Hong-Ik University, Seoul / 2017

TEACHING / 강의

- Creative Coding**
- Aalto University / Sep - Oct 2021
- Coding Clinic**
- Aalto University / Oct - Dec 2019
- Internet Technologies and Techniques**
- Aalto University / Nov - Dec 2019

PROFILE / 프로필

Focus

Interface systems, data visualisation, VR applications, computational art, public installations

Working Mode

Senior hands-on developer로서 architecture sense, visual judgement, prototyping fluency, long-term implementation depth를 함께 갖추고 일합니다.
